PUBLIC COMMENT

There was no public comment.

BUILDING AND GROUNDS COMMITTEE

Byron Copeland from Facility Advocates was present to discuss the science room renovations. An architect and engineer will need to be hired first before construction can take place. The girl's wrestling room is cleaned out, and padding will be needed for the walls and poles. The 1920 building restrooms are planned to have toilet fixtures, lighting, and privacy stall updates. Updates to the 1949 locker rooms would include a dedicated hot water heater, lighting, electrical outlets, plumbing fixtures and doors. It was discussed to fix the boiler to get it up and running for winter. The press box and grandstand at the football field need updates as the wood is rotting and it is not sealed for weather. This will be a 27-28 budget consideration. Raker Rhodes

provided an update with observations, concerns and recommendations for the 1920 building. This document will be posted on the school website. It was suggested by a board member that a maintenance request form be created for all maintenance requests.
